INTRODUCTORY.

In presenting herewith the second volume of SHOLES' ATLANTA CITY DIRECTORY, the publisher would simply state that every effort has been put forth to make it absolutely correct and complete in every particular.

A desire, on the part of many, to evade a certain tax imposed by the city government, has been the occasion of much inconvenience to the canvassers for the Directory, but those who declined giving names for this reason, will in every instance, it is believed, find them in the proper place, generally with the addenda of *Refused Information*.

To the general matter heretofore embodied has been added this year a Southern Post and Money Order Office Directory and a newly revised map of the city, both of which will be found of much convenience.

The publisher extends his heartiest thanks to the patrons of his work for their encouragement, and regrets the fact that so large a number, comparatively, of the business men of Atlanta prefer to borrow the Directory of their neighbor rather than purchase for themselves.

With the hope that this evil, as well as that of refusing names, may be remedied as the years go by, and with the promise that it shall be his earnest endeavor to make each succeeding issue of the Atlanta Directory more worthy of commendation and support, the publisher signs himself,

Very respectfully,

A. E. SHOLES.

GUIDE

To Streets and Avenues in Atlanta and Suburbs.

EXPLANATIONS.

Reference to the "Guide" will show the streets, avenues, etc., in alphabetical order, with the intersecting streets added, and, so far as practicable, corner numbers are given, so if one wishes to find, say No. 41 Whitehall, it will be seen that No. 21 is at corner of Alabama, and No. 63 corner of Hunter; hence, the number sought is between those streets. Many corners are destitute of numbers, which defect should be remedied.

The Union depot is the central point of the city.

The following are the central streets from which others are numbered, viz: Decatur and Marietta running east and west, and Peachtree, West Peachtree and Whitehall running north and south.

The system of numbering is a very defective one, and difficult to understand. Odd numbers are on the right, and even numbers on the left in commencing each street.

Ward boundaries, and halls and public buildings, may be found immediately following the "Guide."

Our thanks are due and hereby extended to Mr. H. T. McDaniel, City Engineer, for his gentlemanly and efficient aid in locating streets, defining boundaries, etc.

Thomas P. Janes, commissioner; R. J. Redding, clerk; J. S. Newman, J. Henley Smith and Wm. F. Janes, employees.

This is the first Department of Agriculture established, (as a branch of the State government, under the control of a salaried State officer) in the United States. Georgia took the lead in this measure, and has been amply repaid for it.

In the Department are displayed samples of the products of the State, which are examined with much interest by strangers visiting Atlanta.

The Commissioner has had compiled and published, a Hand Book of Georgia, and manuals on Sheep and Hog raising in Georgia, which have given great satisfaction and an enviable reputation to the State abroad, which she, though known as the Empire State of the South, never had before.

The inspection and analysis of Commercial Fertilizers, are placed under the charge of the commissioner, and no Fertilizer can be admitted to sale without his consent. The result is that a worthless or very poor fertilizer cannot be found on the market in Georgia. Thus the farmer who cannot judge of the worth of a fertilizer by any test he can apply, is protected from imposition. Georgia is the only State in the Union having and enforcing such a law.

The analyses of fertilizers are regularly published by the commissioner, and circulated throughout the State, from which every person can see the exact value of every brand sold in the State.

The fees for inspecting fertilizers are 50 cents per ton. For the season of 1877-8, almost 100,000 tons were in-

spected, bringing nearly \$50,000 into the State Treasury.

The commissioner has appointed five inspectors who are paid salaries—the highest not exceeding \$1,500. These inspectors are, G. P. Harrison, Savannah; E. T. Davis, Brunswick; T. J. Smith, Augusta; B. D. Lumsden, Macon; J. S. Lawton, Atlanta.

Prof. W. J. Land is the Chemist of the Department for the analysis of fertilizers. Salary, \$3,000 per annum.

The entire expenses of the Department, including salaries of the chemist and inspectors, is less than \$23,000. It thus brings into the State treasury fully twice as much as all its expenses.

For a time after the Department was established, efforts were made in the legislature to abolish it, but all have signally failed, and it is now fully established in the hearts of the people of Georgia.

GEOLOGICAL SURVEY—Established February 27th, 1874. Survey commenced September 1st, 1874. Annual appropriations of \$10,000 for five years. MANUFACTORY

No. 30 SOUTH BROAD STREET.

Up-Stairs

(OVER)

TO THE PUBLIC.

First-Class Artists, First-Class Material, First-Class Work.

I take this method of informing my friends, and the public generally, that I have established a first-class *Bindery* and *Blank Book Manufactory* in this city, where I expect to do the best of work at prices to suit all. Seven years' foremanship of the largest establishment of the kind in this section, enables me to guarantee satisfaction in every instance. The facilities of this establishment for doing all classes of work known in the art of BOOK BINDING, are unsurpassed by any house South. BUSINESS MEN, RAILROAD OFFICIALS, and COUNTY OFFICERS, will do well to call for estimates before having their work done elsewhere. MUSIC, LAW BOOKS and MAGAZINES bound and re-bound. INDEXES CUT, NAMES BEAUTIFULLY MARKED, NUMBERING, PAGING, etc.

Yours respectfully,

C. M. RAMSPECK.

Remember the Place, No. 30 Broad Street (up-stairs), ATLANTA, GEORGIA.
